

BEST PRACTICE - 1

1. Title of the Practice:

Social and Community Outreach initiatives undertaken, as Institutional social responsibility.

2. Objectives of the Practice:

- To collaborate with external group(s)/ individuals/ organizations to enhance the learning experience socially.
- To enhance their societal, and moral, capabilities as well as responsibilities to become better individuals.
- To provide students with support, and guidance, so that it can contribute to holistic student success and the achievement of desired attributes.
- To establish holistic care for the patients admitted to the COVID ward during the pandemic times.
- Maintaining the sound physical as well as mental health of the staff working for COVID-19 patients.
- To provide financial aid to students who lost their parents or those affected by COVID and help them continue with their studies.
- To raise awareness among the community about prevention and preservation of health and the environment.
- To improve the health of people that is totally dependent on hygiene education and sanitation practices that will help them to get a better education with a healthy mind.
- To initiate and work for the upliftment of sex workers, girls, street kids, and transgender by creating awareness, helping them gain education, rehabilitating them or enabling/educating them to develop skills that would help them earn a respectable livelihood.

3. The Context:

Jamia Hamdard has always been committed to the cause of humanity and continues to strive for the upliftment of the needy and the poor. Several activities have been organized related to social and community outreach. These activities develop a sensitization among students, faculty and staff.

4. The Practice:

a. Health Camps

Several health camps were organized for community outreach in adjoining areas of the university. Most of these camps were organized by various departments of SUMER (School of Unani medicine Educational research). There were free camps catering to the needs and health issues of different age groups and are related to maternal and child health, and other health related camps have been organised at various places at New Delhi. Free distribution of medicines was also initiated in many camps. Besides, many other camps have also been organised.

b. Catering to the needs of acceptance, awareness, and education to girls, street kids, sex workers, and transgender

School of Management & Business Studies, has in the past five years organised several activities related to above aspect. Some are listed below:

- Informal School project for Street kids and also Mother and Child Health Programme (MCH) in Partnership with DMCI (Distress Management Collectives India). Informal education to the street kids of Nizamuddin, Nehru Place, Leprosy Colony, Lajpat Nagar, Mayur Vihar, and Sector 48 Noida, who do not get the opportunity to become a part of the formal education system was involved and reached out. Camps to generate awareness regarding mother and child health issues in the slum areas of Nehru Place and Nizamuddin were organized and education material for about 500 kids was distributed.
- Sanitary napkins' project of DMCI focused on menstrual hygiene among adolescent girls and women in streets and slums and on implementation of Menstrual Hygiene Programme in which 4,600 sanitary napkins were distributed
- Mid-Day meal project for street kids and Ration distribution organized by Distress Management Collectives India in collaboration with Jamia Hamdard. As part of the project, 15000 mid-day meals were provided.
- Rehabilitation project for sex workers at GB Road Katkadha organized by DMCI in collaboration with Jamia Hamdard. The project focussed on a rehabilitation project for the sex workers to create alternative income generation and livelihood opportunities viz., mask making and decorative items and their sale.
- Department of Healthcare & Pharmaceutical Management, SMBS, has been working on Transgender healthcare in partnership with Association of Transgender Health of India (ATHI) and Two Transgender conferences IPATHCON 2019 & IPATHCON 2020 with theme on "Demystifying Transgender Healthcare: Addressing the felt need" on 1st – 2nd November 2019, and 2020 were held

c. Unnat Bharat Abhiyan

Jamia Hamdard in collaboration with NGOs like "Reaching Sky Foundation: A Delhi Based NGO", the Business and Employment Bureau (BEB). And others of the kind like Prajna Foundation and Sewa Bharti performed several social activities. Five Villages namely, Chattarpur, Kalkaji, Deoli, Said ul Ajab, and Mehrauli were adopted under this banner. Several activities performed under outreach were: call for volunteers, orientation sessions, visits to the villages, household surveys, and need analysis. Two projects under UBA were also approved (2019, 2020) worth Rs. 1L each.

As part of the project, the team installed Portable Outdoor Wash Station (POWS), developed a health and sanitation app, and for the betterment of the villagers performed sanitation training, and drive was also organized. People were taught personal hygiene and sanitation through interactive activities by JH-WSHE app. Ten Foot Sanitizer Dispenser (Size 14*36 inch) with vinyl printing, Lamination, MDF Mounting, and fitted in the iron stand were installed in Sudhar Camp region Kalkaji and previously a thorough interaction with the villagers and related foundations in the village was performed.

d. COVID-19 related practices

Activities undertaken during COVID-19 pandemic

Awareness and Prevention for Preparedness Response Training on COVID-19 Pandemic--- COVID-19 expertise through online lectures and seminars, training of trainers for and providing financial help to the students orphaned due to COVID was introduced. A special fund "Vice Chancellor's Fund for Benevolence" was created by collecting one day salary of the staff to provide financial support to students who were affected by COVID-19 pandemic or their families affected by COVID-19 pandemic.

e. To sensitize the students about the societal responsibilities

Various student chapters/cells/councils conducted activities and events to sensitize the students about the roles and responsibilities they should undertake which would help them to become better individuals. All the outreach activities had huge number of students as volunteers, and active participation was seen. Under these, donations in the form of toys/old clothes, etc. were collected and given to the needy/poor. IEEE Jamia Hamdard student branch performed one such collection initiative on 1st October, 2019.

5. Evidence of Success

- The team installed Portable Outdoor Wash Station (POWS), developed a hygiene and sanitation app and for the betterment of the villagers performed sanitation training and drive. People were taught personal hygiene and sanitation through interactive activities by the JH-WSHE app.
- Large participation of the needy in health camps speaks volumes about the awareness that was created
- The setting up of COVID center/quarantine center was well appreciated by the government and was a helping hand to their efforts in handling COVID-affected people.
- The conferences organized for transgender had several deliberations and as an outcome it is expected that some collaborations with government agencies/NGOs would be initiated for the empowerment of the transgender.

6. Problems Encountered and Resources Required:

- The major problems encountered were providing follow-up care and referring the patients to tertiary care for further evaluation.
- Procurement of resources required to upgrade as per the patient's needs.
- Convincing the street kids, and villagers to adopt the hygiene aspect in day-to-day life

7. Note (OPTIONAL)

8. Coordinators/In-charges who has been assigned to the above Best Practice

- a). NSS Coordinators
- b). Dean Students Welfare

7.2.1

Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual

REPORT ON COMMUNITY AWARENESS PROGRAM ON ORAL HYGIENE

An awareness program on Oral Hygiene was conducted on 4th March, 2021 at Rural Health Training Centre, Madanpur khaddar, New Delhi by students of DGNM III year under the supervision of Ms. Sartaj Parveen and Ms. Anju, Tutors, Rufaida College of Nursing, Jamia Hamdard. The objective of the program was to increase the awareness regarding importance of oral hygiene, diseases caused due to lack of oral hygiene and maintenance of oral hygiene. Approximately 80 people attended the program. The program included discussions, role play and exhibition of charts and posters on oral hygiene. The role play enacted by the students was the focus of attention for the participants. Participants shared their stories and cleared their doubts regarding oral hygiene.

REPORT ON WOMEN'S DAY CELEBRATION

THEME: "CHOOSE TO CHALLENGE"

On 8th March 2021, every year, the world celebrates International Women's Day. The Women's day celebration was conducted at VP Singh Camp, Pul Prahladpur by the students of Post Basic BSc. Nursing 2nd year of Rufaida College Of Nursing, Jamia Hamdard under the guidance of Ms. Suchhanda Bhattacharya, along with staff members of Urban Health Training Centre. Around 100 people gathered in the event organized by the students of Post Basic B. Sc Nursing 2nd year.

A role play signifying a woman's life and challenges was performed. At the end of the programme Vitamin A, B Complex and Zinc Tablets were distributed to under 5 children. The ASHA workers and Anganwadi workers were also part of the event.

REPORT ON SCHOOL HEALTH PROGRAM

School health program was organized by students of DGNM III year on 15th March, 2021 at Govt. Co-Ed Sarvodaya Vidhalya, Phase-III, Madanpur Khadar Extn. New Delhi under the guidance of Ms. Sartaj Parveen and Ms. Anju, Tutors, Rufaida College of Nursing, Jamia Hamdard. The theme for school health program was Sexually Transmitted Diseases along with Assessment of BMI. The program started at 10 am with the assessment of height, weight and body mass index of the students. Health education was given on Health life-style. Health talk was given on sexually transmitted diseases, their symptoms, prevention and treatment followed by discussions with the audience. The students were advised to follow safe sexual practices in their life to prevent STD's. At the end of the discussions, participants were given prizes for their performance in the question & answer session held in the end.

REPORT ON AWARENESS PROGRAM ON CERVICAL CANCER

An awareness program regarding cervical cancer was organized by students of DGNM III year under the supervision of Ms. Sartaj Parveen and Ms. Anju, Tutors, Rufaida College of Nursing, Jamia Hamdard. Cervical cancer is a highly prevalent cancer among women. While doing family visits, it was felt that the knowledge of women regarding cervical cancer was poor. So, the students organized an awareness camp on Cervical cancer at Rural Health Training Centre, Madanpur Khadar, New Delhi on 17th March 2021 for the people attending OPD and the local inhabitants. Around 100 participants, including staff of the health centre joined the program. The program started at 10 am. The program included discussions, role play and exhibition of charts and posters on cervical cancer.
