About Jamia Hamdard

Jamia Hamdard is the realization of dreams of our Founder Late Hakeem Abdul Hameed, who believed that education was the only way by which society could progress. He was a Unani physician of repute, a philanthropist and entrepreneur who set up a number of institutions ranging from primary schools to University. He also promoted a number of academies and societies working in the field of scientific and literary research. In view of the high standards of teaching in the Hamdard College of Pharmacy, Hamdard Tibbi College, Rufaida College of Nursing and published work of Institute of History of Medicine and Medical Research and Institute of Islamic Studies, the Ministry of Human Resource Development (MHRD) declared Jamia Hamdard as a ‘Deemed to be a University’ on the recommendation of the University Grants Commission (UGC) under Section 3 of the UGC Act 1956. The University was inaugurated by the then Prime Minister of India, Shri Rajiv Gandhi who addressed a large gathering of students, teachers and members of the Jamia Hamdard Society on August 1, 1989. In his inspiring inaugural address, he applauded the efforts of Hakeem Abdul Hameed for setting up a number of institutions of learning, which finally emerged in the form of the present University.

Jamia Hamdard considers itself to be an institution different from the others in views of the personal stamp of Hakeem Abdul Hameed on the ethos and work culture in the campus. In recognition of the University’s contribution to the teaching and research, the National Assessment and Accreditation Council (NAAC), a body from the University Grants Commission, conferred on it ‘A’ Grade in the accreditation exercise in March 2003. No other University in Delhi was accredited by NAAC at that time. Accreditation by the NAAC came with responsibility, accountability, quality and transparency. Jamia Hamdard tried to maintain these standards and has been able to attract talented students and faculty from all over the country. Currently, students from over 30 nationalities are enrolled in the University in different courses. This speaks volumes of the reach and quality of the University academic profile.

In a short period of about 20 years, Jamia Hamdard has been able to transform itself into one of the leading Universities in India and its presence is globally represented by its esteemed alumni.

The University concentrates on professional courses, which equip the students to get employment in a highly competitive job market in the country and abroad. Many of its courses are also aimed at offering training for self-employment.

At present, Jamia Hamdard comprises of eight Faculties each with distinct teaching and research programme. Each faculty and Department has been created after due process of discussion, brainstorming sessions at various statutory bodies of University.

The University strives to provide the best learning facilities to its students on campus and those registered in open and distance mode of education. At the same time, the University expects it students to be highly disciplined, motivated and committed to hard work.

Jamia Hamdard is a member of Association of Indian Universities (AIU), New Delhi and Association of Commonwealth Universities (ACU), London.

Jamia Hamdard has been offering selected courses through (Open and Distance Learning) mode of education. For all these courses there are strong in-house capabilities which are available to students all the time.

Directorate of Open and Distance Learning (DODL) of Jamia Hamdard

There has been a significant growth in the area of open and distance education around the world. Open Distance and Learning mode of education has been recognized as one of the effective tools of educationally empowering the sections of the society who could not afford to join the formal on-campus education due to various reasons. Presently, ODL institutions are not only imparting education as an alternative to the formal system but also in areas such as vocational and technical education and even in high technology based education. The distance education also has potential to reach to the un-reached and even marginalized and excluded groups such as tribal populations and Muslim women. Open and distance education provides an opportunity to students for acquiring new knowledge and skills that are needed to function in the society. Jamia Hamdard being in education field for a long time has taken initiatives to offer an opportunity to those students who are unable to get on-campus education and those who have limited access to education resources. The Directorate of Open and Distance Learning (DODL) of Jamia Hamdard was established in 2004 to promote education through open and distance learning system, with introduction of flexible and innovative methods of education to ensure ‘independent learning’ to anyone, anytime and anywhere. ODL programmes of Jamia Hamdard also envisage providing an opportunity to girls from Muslim community who by and large has been left out in educational efforts of our nation.

Jamia Hamdard’s study programmes under ODL are selective and customized to meet the learning requirements of knowledge seekers as well as to ensure that they learn at their own pace and convenience. Within the financial means of University, due care has been taken to keep the cost of education low so that educationally backward sections can take advantage of
University’s programmes through ODL mode. Keeping this goal in view, the DODL of Jamia Hamdard has made concerted efforts to offer professional and job oriented courses with regular updates of curricula and study material and introduction of tools of Information Technology.

Programmes of Study under ODL

Jamia Hamdard has decided to offer education through ODL mode in few selected programmes where University has strength. The courses are designed and developed with views to prepare a cadre of manpower who may possess requisite knowledge and professional skills to effectively function in the globalised economy, which is no doubt highly knowledge intensive. In its endeavors to cater for education and training needs of different socio-economic groups of people, the programmes have been carefully identified to fill the gaps in availability of courses offered by other institutions and/or to provide cost-effective options to the weaker sections of the society, who are unable to reap the benefit of development due to lack of adequate education, training and skills. Without sacrificing the quality of education, the cost of education is kept very low so that the economically deprived sections may afford to pay fee and may benefit from the educational opportunity. Learning resources are provided at the doorsteps of learners through the extensive network of educational institutes at our study and learning resource centres.

The experience and expertise of reputed colleges and universities and other educational institutions, which are our recognized Study and Learning Resource Centres, are duly utilized for delivery of programmes and for effective learning. From the very beginning of the process of planning and execution of programmes, the best practices in Open and Distance learning for quality assurance are followed, which is why the programmes of Jamia Hamdard are very popular among the enlightened community of students.
