Workshop on
“Effective Soft Skills for Clinical Research”
Date: April 09, 2015

Venue: Jamia Hamdard Convention Centre (Hamdard University), New Delhi-110062

WHY THIS WORKSHOP?
With the changing times, the face of the corporate world is changing, wherein the need-of-the-hour is to have state-of-the-art professionals who are agile enough to meet the growing demands of the industry. When we talk of Clinical Research, with face of industry rapidly changing to meet dynamic regulatory demands, it is imperative that key contributors are honed with these skills in order to engage the sites while focusing on quality and ethics. Usually, college graduates have virtually no exposure to the people skills required to be effective at work since they have little opportunity to work part-time when they are students. Employees also fail to recognize that they need soft skills to work with others. With an aim to generate common platform to discuss importance, areas of improvement and way forward, this workshop has been planned. We bring in experts from the spectrum of backgrounds for exchange of ideas and experiences and networking and also impart some hands-on training on soft with special reference to clinical research.

COLLABORATORS
This programme is a joint venture of Harrisons- a trusted named in GMP and GCP Consulting and Centre for Translational and Clinical Research, Faculty of Science Jamia Hamdard, New Delhi which is globally recognized for its quality research and education in the field of pharmacy and clinical research.
