Dear Sir,

Greetings!

Thanks for your patronage to SCC Online Web Edition.  
We are in receipt of your emails & calls regarding Usage Report/ Statistics for SCC Online Web Edition.

## Usage Report – SCC Online - IP Access + Remote Access

Please note that we have recently updated our IP Access Management System & we are currently in testing phase for the report generation feature from the new system. We are unable to generate accurate Usage Report from this new system. Also the numbers extracted may not be complete & Usage Figures may be grossly under reported. Our technology team is working on enhanced accuracy level of the reports. As desired, please find below the “Usages Report” for the period June 15, 2021, till May 30, 2022 for your School of Law/University:

to me, mshoaib, Rajeev

Dear Dr Riyazuddin,

Greetings from CMIE,

This is in reference to our discussion a while ago, as discussed, please find below usage statistics for the ProwessIQ database:

1. **24-Jun-2019 23-Jun-2020**: 552 hits

2. **26-Feb-2021 26-Feb-2022**: 592 hits

Usage hits of ProwessIQ is very different from usage hits counted for journals. Journals have pages whereas ProwessIQ has 80 query triggers and a combination of queries is counted as hits. Please find below a few examples of how hits are counted in the ProwessIQ database:

- a) Taking out data on 20 indicators for all 51000 companies from Prowess for 10 years is counted as 2 hits.
- b) Extracting profitability ratios, and liquidity ratios for all listed companies for 10 years is counted as 2 hits.
- c) Data query on all manufacturing companies with 20 indicators for 30 years data consumes 2 hits.
- d) Download of all companies in a sector with their financial indicators for 30 years will consume 2 hits.
- e) Data query on daily share prices for all listed companies for 720 days will consume 2 hits.

Hence usage stats for both the years shows good use of the ProwessIQ database.

For any support or clarification, feel free to call or mail me

Regards  
Pratima
