## **Professor Dr. Samir Kumar Brahmachari**

Professor Samir Kumar Brahmachari (born 1952) completed his Ph.D. (1978) in Molecular Biophysics from Indian Institute of Science (IISc), Bangalore. After a brief Post-doctoral stint in Paris, he joined Molecular Biophysics Unit, IISc as Research Associate (1979) and eventually a Professor (1997), before joining as Director, CSIR Centre for Biochemical Technology (CBT), Delhi and transformed CBT to Institute of Genomics and Integrative Biology. He served (Nov 2007-Dec 2013) as Secretary DSIR and Director General of the Council of Scientific and Industrial Research (CSIR), the largest publicly funded organization involved in scientific and industrial research with 37 constituent laboratories across India.

Dr. Brahmachari made fundamental contributions towards the basic understanding of structure-function relationship of peptides, proteins and DNA and the role of DNA structural variability in regulating various biological processes. Subsequently, he contributed towards the broader area of genome organization and function, with special focus on Repetitive DNA. He demonstrated the structural flexibility of DNA and elucidated the functional role of repetitive DNA much before the discovery of association of repeats with genetic basis of several neurological disorders. Integrating computational tools with biological experiments and biophysical studies, Prof. Brahmachari built models and deciphered mechanisms of various triplet repeat associated disorders. During the 90's, foreseeing the potential of using the large genetic pool of Indian population for Functional Genomics studies in the post human genome sequencing era, he established the first Functional Genomics Unit and successfully led the well-recognized Indian Genome Variation Project. This exploration of human genome variation in multi-ethnic, multilingual populations of India led to development of a national resource: the genetic profile of the people of India. This novel project was later extended under his leadership to the Pan-Asia SNP project involving all the East Asian countries.

Prof. Brahmachari is a pioneer of genome analysis using computational tools. Besides developing many novel Bioinformatics tools and databases, he made significant contributions in the area of miRNA- mediated regulation of host- pathogen interactions and cellular regulation. His passion towards genome analysis to identify unique structural determinants of proteins, which could become potential drug targets in pathogenic organisms, led him to holistically look at the Systems Biology of pathogens, and to translate the genomic knowledge thus generated, into application. The Open Source Drug Discovery (OSDD) platform, with its unprecedented scale of participation by students and professionals, under the innovative directions provided by Prof. Brahmachari, not only accelerates drug discovery, but also holds a promise of tremendous and disruptive impact on the economics of drug development for neglected tropical diseases like TB. Contributing towards translational research, he has developed molecular diagnostics for neurological disorders and markers associated with drug response.

His present interest lies in the utilization of genomics and computational technology to gain a systems level understanding of pathogenic organisms and develop low cost drugs and diagnostics to achieve the vision of affordable healthcare for all.

Prof. Brahmachari has >12 patents, 23 copyrights and >155 research publications to his credit. He is the recipient of large number of National and International awards, including the prestigious Shanti Swarup Bhatnagar Award (1990) and is an elected Member of all four academies of science and engineering in India (FNA, FASc, FNASc) and Elected Fellow of the Third World Academy, Trieste (FTWAS).

## ONE DAY SEMINAR CUM WORKSHOP ON ADVANCES IN CHROMATOGRAPHIC TECHNIQUES

### ORGANIZED BY

Department of Chemistry  
School of Chemical and Life Sciences  
Jamia Hamdard

**IN COLLABORATION WITH**  
Bonna-Agela Technologies  
(A Phenomenex Company)

**12<sup>th</sup> FEBRUARY, 2018**

Venue: Convention Centre  
Jamia Hamdard, New Delhi, India

## Introduction to the seminar

- Join us for a workshop on current advances in chromatographic techniques and their importance in compound identification and purification.
- The speakers will address in-depth the latest scientific and technological advances, emerging applications, critical processes and challenges in the field of chromatography.
- Workshop provides an excellent opportunity for those interested in chromatographic techniques to learn more about their applications to diverse areas. The purpose of the workshop is to provide a hands-on training to share the practical knowledge of analytical chemistry and chromatographic techniques.

## Topics to be covered

- Basics of Reverse Phase Chromatography
- HPLC Method Development and Optimization
- Flash Chromatography, Applications and Instrumentation

## Eligibility criteria

- Research scholars pursuing Ph.D. or M.Sc/M. Pharm./M. Tech. and anyone with interest in chromatographic techniques.
- Duly filled-in registration form accompanied with a Demand Draft/Cash towards payment of registration fee of the required amount in favor of Jamia Hamdard should be submitted on or before 08<sup>th</sup> February, 2018.

## Important dates

- Last date for submission of registration form: 08-02-2018
- Confirmation to the selected participant: 09-02-2018

## Registration fee

- Students: Rs. 500/-
- Academia: Rs. 800/-

**OFFICE ORDER**

The Pro-Vice Chancellor has been pleased to accord approval to the Education Tour (2017-18) of 23 students of M.Sc. Botany 2<sup>nd</sup> Year students to visit Himachal Pradesh from December 18 - 23, 2017.

Dr. T.O. Siddiqui, Associate Professor, and Ms. Shruti Singh, Sr. Research Scholar, Dept. of Botany, will be the teachers' in-charge of the tour.

The terms and conditions and details of the sanctioned expenses are as under:

1. Concessional Sleeper II Class Railway fare for the shortest route.
2. Pocket expenses @ Rs. 20/- per day per student.
3. Teachers' in-charge will travel with the students in II Class Sleeper.
4. DA to the Teachers shall be admissible as per rule.
5. Where the railway route does not exist only ordinary bus fare of Govt. / State Transport will be admissible.
6. The students shall not take part in any risky activities.
7. The University will not be responsible for any accident during the Tour.
8. No one will be allowed to enter the river / lake / sea even if he / she know Swimming.
9. The students will inform their parents / guardian about the tour well in advance.

The expenses of the tour shall be covered under the Budget provision of 'Educational Tour' Dept. of Botany for the financial year 2017-18 as per rules.

As precautionary measures, Tour In charge will ensure some local support while taking time for sightseeing and the students are required to follow the instructions of their teachers strictly. If any time during the tour, it was found some misconduct or disobeying the instructions by the students disciplinary action will be taken against such student(s). If these terms and conditions are acceptable to the touring students, Teachers In charge are requested to take consent in writing on the back of this order before departure. A copy of the same should be forwarded to the undersigned for record.
