12th FEBRUARY, 2018

Venue: Convention Centre
Jamia Hamdard, New Delhi, India

Introduction to the seminar

Join us for a workshop on current advances in chromatographic techniques and their importance in compound identification and purification.

The speakers will address in-depth the latest scientific and technological advances, emerging applications, critical processes and challenges in the field of chromatography.

Workshop provides an excellent opportunity for those interested in chromatographic techniques to learn more about their applications to diverse areas. The purpose of the workshop is to provide a hands-on training to share the practical knowledge of analytical chemistry and chromatographic techniques.

Topics to be covered

- Basics of Reverse Phase Chromatography
- HPLC Method Development and Optimization
- Flash Chromatography, Applications and Instrumentation

Eligibility criteria

Research scholars pursuing Ph.D. or M.Sc/M. Pharm./M. Tech. and anyone with interest in chromatographic techniques.

Duly filled-in registration form accompanied with a Demand Draft/Cash towards payment of registration fee of the required amount in favor of Jamia Hamdard should be submitted on or before 08th February, 2018.
