SEMINAR ON RESEARCH ECOSYSTEM IN HIGHER EDUCATION INSTITUTIONS AND ITS IMPACT ON ACCREDITATION AND RANKING

August 01, 2022

JAMIA HAMDARD, NEW DELHI – 110062

- The future of New Education Policy (NEP 2020) will depend on the quality of research and innovation and technology development as it is the foundation of *Atma-Nirbhar Bharat* (Self-reliant India).
- Research and Innovation Excellence Framework (RIEF) has been developed to enhance the quality of research along with promotion of engagements with relevant stakeholders. Accordingly, UGC has directed Higher Education Institutions (HEIs) to establish a Research and Development Cell (RDC).
- It is a fact that in horizontal and vertical growth of the institution the "Quality Research" plays a very vital role. Quality research is one of the key components not only in achieving nation's 2030 Sustainable Development Goals but also in securing high Ranking and Grade in the process of assessment by NBA and NAAC, respectively. There is huge weightage assigned to 'research' in accreditation and ranking by Indian and International agencies.
- Jamia Hamdard is one of the most premier institutions with research orientation. As an active research institution in Pharmacy, Jamia Hamdard has achieved Rank 1 in NIRF for last four consecutive years.
- The objective of this Seminar on **Research Ecosystem in Higher Education Institutions and its Impact on Accreditation and Ranking** is to deliberate on various dimensions and issues and to create awareness about importance of an enabling 'research ecosystem' to meet goals of NEP. There will also be discussion on the strategic planning by HEIs to achieve high ranking and successful accreditation.
- The Seminar is being conducted in collaboration with **National Assessment & Accreditation Council (NAAC)** and is supported by the **DST-PURSE grant**.

THEMES

1. Effective research management for desired outcome
2. Research ethics and their importance in HEIs
3. Research funding mobilization
4. Benchmarking of research of Indian universities
5. Research quotient and New Education Policy (NEP)
6. Role of research in rankings
7. Research and accreditation
